RE: Proposed Revisions to the Regulations Governing the Certification of Educators
in Rhode Island – Second Read by the Council

Attached please find a red-lined version of the proposed revisions to the Regulations Governing the Certification of Educators in Rhode Island, which captures the regulatory language supporting the conceptual set of changes discussed at your April 24 meeting. Attached is the deck from that discussion.

It is important to note that the regulations have been reformatted in order to comply with the statewide initiative that brings a consistency to all Rhode Island's regulations across agencies. The reformatting did not change any of the content but it will look different from the regulations currently posted on RIDE's website.

We look forward to our continued discussion and your recommendations at your Special Work Session on **Wednesday, May 9, at 5:30 p.m.**

TITLE 200 – BOARD OF EDUCATION

CHAPTER 20 – COUNCIL ON ELEMENTARY AND SECONDARY EDUCATION

SUBCHAPTER 00 - N/A

PART 01 – REGULATIONS GOVERNING THE CERTIFICATION OF EDUCATORS IN RHODE ISLAND

1.1 Purpose, Scope, and Authority

A. Pursuant to Section 16-11-1 of Rhode Island General Laws the educators in Rhode Island public schools are required to attain certification. Pursuant to Section 16-60-4 of the Rhode Island General Laws the responsibility for setting regulations for certification rests with the Council on Elementary and Secondary Education. The purpose of these regulations is to update the requirements and procedures that govern educator certification in Rhode Island ~~and to consolidate all Council Regulations related to Educator Certification~~. These regulations detail a comprehensive redesign of the certification system that will go into effect as the Department of Education creates supports necessary to implement the revisions. ~~All changes to regulations are effective 01/01/2012 except for new provisions that will be phased in as noted by effective dates within the text of the regulations.~~

B. All changes go into effect on December 31, 2018 unless otherwise noted. The one-year residency requirement for all teacher certificates will go into effect December 31, 2021.

~~B. The Rhode Island Department of Education's (RIDE) 2010 Strategic Plan established the revision of certification as a critical strategy in achieving the goal of ensuring educator excellence throughout Rhode Island. RIDE began the process of redesign with a comprehensive review of current certification regulations and has revised the regulations to more closely align certification with student achievement and other evidence of effective educator performance. These regulations also streamline certification requirements to ensure that all certificates are designed to improve student achievement and create a system of certification that opens pathways for career advancement. This set of regulatory changes brings all previous sets of regulations and revisions made as a result of this update together into one set of regulations governing certification.~~

1.8.5 Professional Learning Units

A. A. Professional Learning Units (PLUs) are accrued for the purpose of demonstrating ongoing professional learning. The accumulation of these units is a requirement for renewing educator certificates. These units represent ongoing learning and are earned as a result of professional learning activities that are designed to increase educator effectiveness. Ongoing learning is an important and necessary responsibility of educators as they maintain the knowledge and skills needed to educate students.

B. Educators are responsible for the completion of all PLUs, including any financial responsibility not otherwise provided for by the state or local education agency (LEA), as PLUs are a condition of the renewal of educator certificates.

C. All educator PLUs for employees of a LEA shall be approved by the superintendent of the LEA, consistent with these regulations. PLUs for superintendents shall be approved by the chair of the school committee.

1. Activities that may count toward the accumulation of professional learning units are those that develop subject matter/content knowledge, pedagogical knowledge, pedagogical content knowledge, curriculum implementation knowledge or enhance educator effectiveness.

2. Activities that do not directly relate to improving educator effectiveness, such as general logistics, school daily operations, safety trainings, and most committee work do not qualify for professional learning units. These are important activities for schools but are not considered professional learning.

B. Sustained Professional Learning

1. ~~1.~~ Seventy-five percent of professional learning units earned must meet the sustained professional learning requirements.
2. Professional learning is sustained when at least ten PLUs are earned through an activity that is 10 or more hours in length or when shorter activities of the same topic take place over time.
3. 67.5 of the 90 required professional learning units for the Initial Educator Certificate must be sustained units.
4. 105 of the 150 required professional learning units for the Professional Educator Certificate must be sustained units.

C. Alignment of Professional Learning to Individual and District Needs

1. Professional learning must be aligned to the professional and instructional needs and interests of educators or the needs of the schools and districts where they practice.
2. Individual needs may be determined via formal processes such as evaluation or informally through collaboration and needs assessments.
3. School and district needs are determined via strategic planning and school improvement planning.

D. Activities for Professional Learning Units

1. Site-Based Professional Learning activities such as: structured Professional Learning Communities, data analysis meetings, local workshops, lesson study, student work analysis sessions and other site-based activities designed to improve teaching and learning.
- ~~2.~~ 3. Structured coaching that involves trained coaches working with colleagues on focused objectives through observation and feedback cycles. Coaching may take the form of induction coaching for beginning teachers or peer coaching and instructional coaching.
- 3.4. Proficiency-based Learning and Micro-credentials activities that require the educator to demonstrate proficiency in a new skill by submitting evidence of mastery. Micro-credentials often require educators to submit evidence to third party providers for review.
5. University coursework at accredited institutions of higher education.

6. National Board Certification is a recognized form of professional learning that may be used to accumulate units. Educators may receive units for completing individual components even if the certification is not achieved.
 7. External Conferences or Workshops led by external organizations encompass a wide range of learning opportunities. Short-term or stand-alone workshops can be counted for limited units if they do not meet the sustained requirement.
- E. Assigning Unit Values to Activities- In order to recognize hours-based and competency-based professional learning experiences, RIDE will use professional learning units as its measure for documenting professional learning. Conversions will be needed to accommodate different learning activities.
1. 1 hour of a professional learning activity = 1 professional learning unit. For tracking purposes, rounding to the nearest half-hour is appropriate.
 2. 1 college credit=15 professional learning units
 3. 1 demonstrated competency in proficiency-based or competency-based learning = 5-10 professional learning units, determined by the Superintendent based on the rigor of the competency expectations
 4. National Board Certification: 1 component = 45 professional learning units. Completion = 180 units. Renewal= 90 units
- F. Record Keeping and Documentation
1. Educators must maintain records of all activities and make them available upon request by RIDE. All records must attest to participation by the educator in the activity and the professional learning units earned.
 2. Employers verify locally that educators met renewal requirements. Documentation of verification shall be provided to the educator for certification renewal.
 3. Educators must submit employer verification forms to RIDE as part of the renewal process.
- G. Audits of Professional Learning Units
1. In order to ensure the efficacy of the professional learning unit system, RIDE will audit renewal applications each year.

2. -Educators selected for audit must submit documentation for all activities submitted for certificate renewal.

3. Failure to submit required documentation will result in non-renewal of certificates.

1.8.5 Preliminary Certificates ~~[Effective 01/01/2015]~~

These Preliminary Certifications provide a basis for identifying the most qualified personnel for these vacancies.
- D. Employing agencies that hire educators working under a preliminary certificate shall evaluate and provide meaningful support to these educators.
